Kath O'Donnell <aliak77@gmail.com>

to overland

hi, I take issue with the following paragraph in the article "Hackers, game
https://overland.org.au/previous-issues/issue-218/feature-brendan-keogh

"Even as computers became increasingly significant devices in the last d
patriarchal structures that inscribed them as mathematical, scientific, imp
*in parts of society **already explicitly gendered**: the science lab, the mat*
bedroom rather than the daughter's."

I think the sentences should be clarified to be inclusive of women, as thes
been for 26 years, working with computers and high-end television techno
on, building, programming computers for that period and numerous years

I spoke to the writer of the article on twitter and suggested he change the
of tweets debating over which word to use. but I checked with him later a
be updated.

This disappoints and annoys me - both that the writer, who by doing this
technology or women in games (as was the topic of the article - he also g
also disappointed with Overland and the editing team who allowed these
read your "about" page, and I think by not fixing this article to be more in
suggest also, that Overland think more carefully on allowing this writer to

I wrote a blog post about it should you wish to know more about my reas
